AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-29 (canceled)

Claim 30 (previously presented) An elongated lighting system which comprises a plurality of modules of discrete length arranged end-to-end, said modules being energized by an induced voltage using an embedded magnetic core and coiled wire, said modules having a plurality of LEDs on an elongated support, said LEDs being connected to electrical conductors having a length not exceeding the discrete length of the module, said modules being moulded with the LEDs, elongated support and electrical conductors being embedded in at least one of transparent, opaque and semi-transparent plastic material.

Claims 31-41 (canceled)

Claim 42 (previously presented) An elongated lighting system comprising:
a channel member including electrical source connectors; and
one or more elongated lighting module sized and shaped to be receivable within said channel member, each of said one or more elongated lighting module including a plastic enclosure, said moulded plastic enclosure encapsulating an elongated support including one or more light-emitting devices positioned on said elongated support and electrical source connectors connected to said one or more light-emitting device and extending from said plastic enclosure so as to make contact with said electrical source connectors, wherein said channel member includes a central support and said electrical source connectors are separated from each other by said central support.

Claim 43 (previously presented) The system of Claim 42 wherein said channel member includes a pair of spaced grooved respectively formed on opposite sides of said central support.

Appln. No. 10/089,823
Filed: April 3, 2002
Office Action Mailed: May 5, 2004

Claim 44 (previously presented) The system of Claim 43 wherein said plastic enclosure includes a pair of spaced legs which are sized and shaped to fit into said pair of spaced grooves.

Claim 45 (previously presented) The system of Claim 42 wherein said channel is embedded below grade.

Claim 46 (previously presented) The system of Claim 42 wherein said channel is anchored above grade.
